

Atos Academy

Opportunity for graduates and students!

Would you like to become Google Cloud, BI, Big Data, IOT Developer or IT Consultant?

Atos offers you lectures & exercises in areas:

- ➔ Consulting core competences
- ➔ Google Cloud
- ➔ BIG data Management - Java
- ➔ Internet of Things (IOT)

4 weekends (4 x 12 hrs)

Apply to our Academy if below points describe you:

- ➔ Student or recent graduate
- ➔ Interest in current IT trends: Internet of Things, Big Data Management, Cloud Computing
- ➔ Good verbal and written English language (second European language as an asset)
- ➔ Willingness to learn new systems and processes and use of appropriate technology
- ➔ Good analytical and problem-solving skills
- ➔ Self-motivation and ability to work as a part of a team

After the training the best participants will be offered a job at Atos!

Does it sound like your future tasks?

Whether you choose to develop your skills in:

- ➔ digital technology consulting or coding,
- ➔ IT strategy or security,
- ➔ business performance

you will be at the forefront of the application of technology that is driving the ever-increasing changes in today's most successful businesses
